

The KAP assessments measure students’ understanding of the Kansas Standards at each grade. The English Language Arts assessment asks students to read and answer questions about literary passages, informational texts, and writing samples. Students demonstrate their knowledge and skills related to reading and writing by selecting the right answer and sorting, matching, labeling, and ordering information.

Average District and State Performance

Standard error of the mean for each grade in this report:

- Grade 3: District—13.0 | State—0.3
- Grade 4: District—8.6 | State—0.3
- Grade 5: District—9.4 | State—0.2
- Grade 6: District—7.5 | State—0.2
- Grade 7: District—10.1 | State—0.2
- Grade 8: District—10.2 | State—0.2
- Grade 10: District—6.8 | State—0.2

The standard error of the mean identifies how much sample means are expected to vary if multiple samples are taken from the same population.

Your District's ELA Performance by Category

The table below shows the total percentage of students in your district who performed in the At and Above levels for each category. Remaining students performed in the Below level. These three levels compare your students' performance to that of a statewide student group performing near the proficiency standard. These levels have no direct correspondence to overall performance or overall proficiency.

This information should help schools continue to evaluate their curriculum, materials, and instructional practice. As always, additional measures of student learning should also be considered.

Grade	3	4	5	6	7	8	10
Writing							
Overall				73%	44%		
Text Types & Purposes	74%	83%	71%			58%	64%

Where Do We Go Next?

These data help districts examine student performance in these areas of ELA. As part of the KAP Balanced Assessment System, Instructional Mini Tests offer opportunities for educators to reinforce Kansas learning standards with students and build experience with the kind of questions and item types they will encounter on the KAP Interim and Summative Assessments.

The flexible nature of Instructional Mini Tests allows educators to not only receive data on student performance on current grade-level standards, but also on previous and future grade-level standards as appropriate. We strongly encourage all schools to make use of these resources in the classroom.
